SUMMARY

Frontend/Full-Stack Engineer with 4+ years shipping production interfaces across fintech, logistics, healthcare, and enterprise platforms. Specializes in React, Next.js, and TypeScript, with hands-on backend experience in Node.js/NestJS and mobile development in React Native. Comfortable owning features end-to-end, from component architecture to API design and deployment.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend / Mobile: React, Next.js, Angular, React Native, Redux Toolkit, Tailwind CSS

Backend / Data: Node.js, NestJS, Express, REST APIs, PostgreSQL, MongoDB

Tools & Practices: Docker, Git, Agile/Scrum, TDD, Code Review, CI/CD

EXPERIENCE

Frontend Engineer

Jun 2024 – Present

Soft Alliance And Resources Limited

Lagos, Nigeria

- Led frontend development of SoftAce EDMS in Angular, delivering a document capture, workflow, and records-management system now in use by enterprise clients across multiple organizations.
- Architected reusable frontend modules across ERP, fintech, billing, and incident-monitoring platforms using React, Angular, Next.js, TypeScript, and Redux, reducing average feature development time for the team.
- Standardized component patterns and state-management conventions across the codebase, cutting UI inconsistency bugs and improving maintainability.
- Partnered with product, design, QA, and backend teams in Agile sprints to ship 10+ client-facing enterprise features, consistently meeting release deadlines.

Frontend Engineer — Contract

Mar 2024 – Mar 2025

Mason Atlantic LTD

Remote

- Delivered a suite of logistics and fleet-management dashboards in React and TypeScript, giving 30+ internal users real-time visibility into fleet operations for the first time.
- Built real-time data views and workflow-driven UI components that measurably reduced task completion time for operations staff.
- Optimized high-volume data tables and filters to handle thousands of records without performance degradation.
- Implemented comprehensive loading, error, empty, and edge-state handling across key logistics workflows, reducing user-reported UI failures.

Full-Stack Developer

Apr 2022 – Mar 2024

Balm-Technologies

Lagos, Nigeria

- Built and shipped end-to-end healthcare applications for patients and clinicians, pairing React/Next.js frontends with backend services for scheduling, payments, and patient management.
- Integrated Stripe payment flows and Google Calendar sync into a patient booking system, enabling secure online payments and eliminating scheduling conflicts.
- Structured backend services with Next.js API routes in a microservice-oriented pattern, improving maintainability and easing onboarding of new developers.
- Reduced API-related frontend errors through rigorous input validation, async error handling, and tightened frontend-backend data contracts.

Software Engineer Intern

Aug 2021 – Mar 2022

Bookishmate

Lagos, Nigeria

- Contributed to 5+ responsive production features using Next.js, Tailwind CSS, and Redux Toolkit, each shipped on schedule and passing QA on first review.
- Resolved 20+ UI defects and cross-browser compatibility issues, improving overall frontend stability and reducing regression bugs ahead of key product launches.
- Collaborated with senior engineers in code reviews, accelerating personal growth and contributing reusable components retained in the codebase long-term.

PERSONAL PROJECTS

Martiful

martiful.com

- Mini fintech web app for buying airtime, data bundles, and utility bill payments, with a fast checkout flow and real-time transaction feedback. Built with React, TypeScript, and Tailwind CSS.

The House

thehouseng.com

- Restaurant e-commerce web app with full menu browsing, cart, and ordering flows, live and publicly accessible. Built with React, JavaScript, and Tailwind CSS.

Eazybrew

- Multi-role admin dashboard with tailored interfaces for admins, operators, and business users, enabling role-based access to platform management tools. Built with React, TypeScript, and Tailwind CSS.

EDUCATION

BSc Chemistry, University of Lagos

2018 – 2022

Diploma, Computer Science, Bafuto Computer Institute

2017 – 2018
